

# bonga®

Bonga stretch tents are the result of a dedicated team of people who use their craftsmanship and knowledge of products and materials to produce high quality, Belgian-made stretch tents. Although the luxury appearance of a stretch tent may suggest otherwise, with Bonga you pay a reasonable price for a tent of the very highest quality. The enormous flexibility of the stretch tent is the main reason for many surprised faces. On top of that, thanks to the extensive amount of tents in stock, standard-sized stretch tents are normally available off the shelf within a couple of working days.

## DID YOU KNOW...

... you can find Bonga stretch tents in nearly every country in the world?

... the Bonga stretch tents were shining at the Dior Fashion Show in Hollywood Hills and at the Burning Man Festival in the Nevada Desert?

## THE STRETCH TENT: FLEXIBLE, STRONG AND STYLISH

---

### STRETCH CLOTH (TRIFLEXX):

- Consists of three layers
- Waterproof
- Fire retardant M2 and B1
- Wind-proof up to 8 Bft.
- UV-resistant
- Anti-fungal
- Reinforced side seams every meter
- Thermally welded seams
- Keder system available to fix tents to the wall
- Different ways to pitch the tent
- Connectable by means of coupling clamps and gutters

### WOODEN POLES:

- Eucalyptus poles from South Africa
- With reinforcement plates to prevent the poles from splitting
- FSC-certified
- Treated with Tanalith E for longer life span

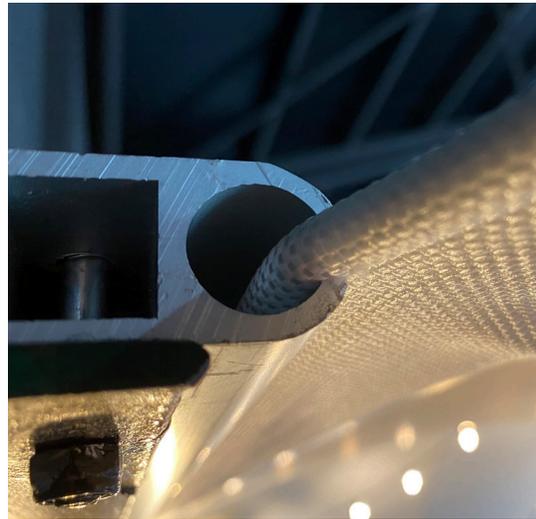

### ALUMINIUM POLES:

- Choice between standard or extra sturdy poles
- Connectable
- Pole feet to prevent the poles from slipping
- Easy to stow, doesn't take much space

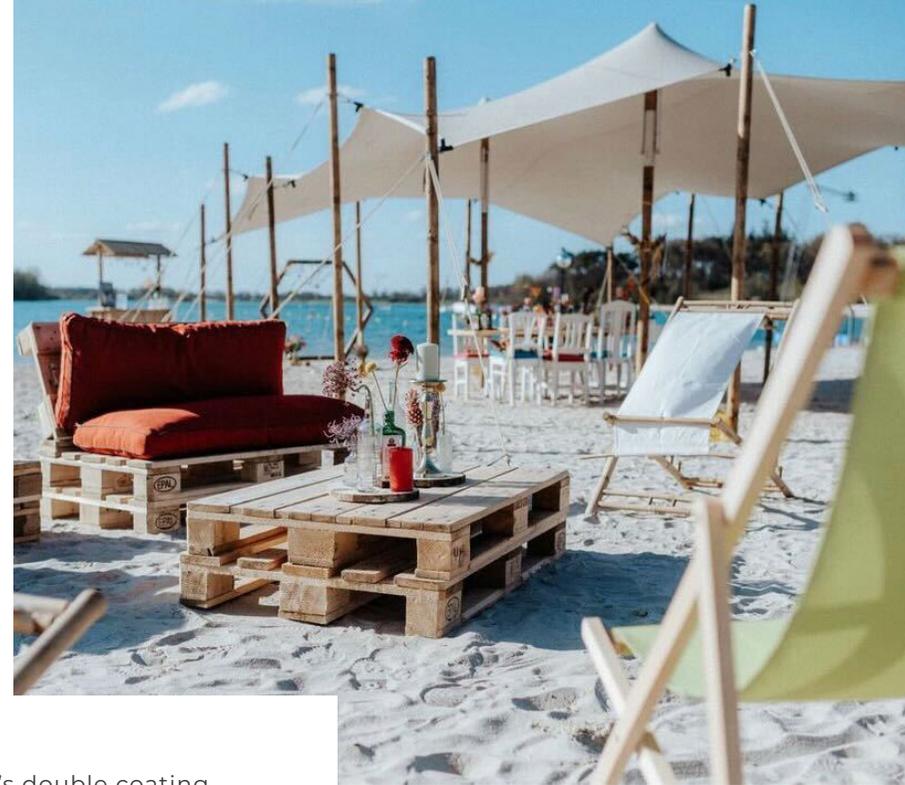

## WHY BONGA?

One of the biggest advantages of our Bonga stretch tents is the triflexx fabric with double coating, which ensures our tents are very easy to maintain, which results in tents that can be used in numerous occasions, both for professional as well as for private customers. This fabric is unique in the market. We are the only stretch tent manufacturer world wide that offers this fabric. You can choose from a wide range of colours and colour combinations.

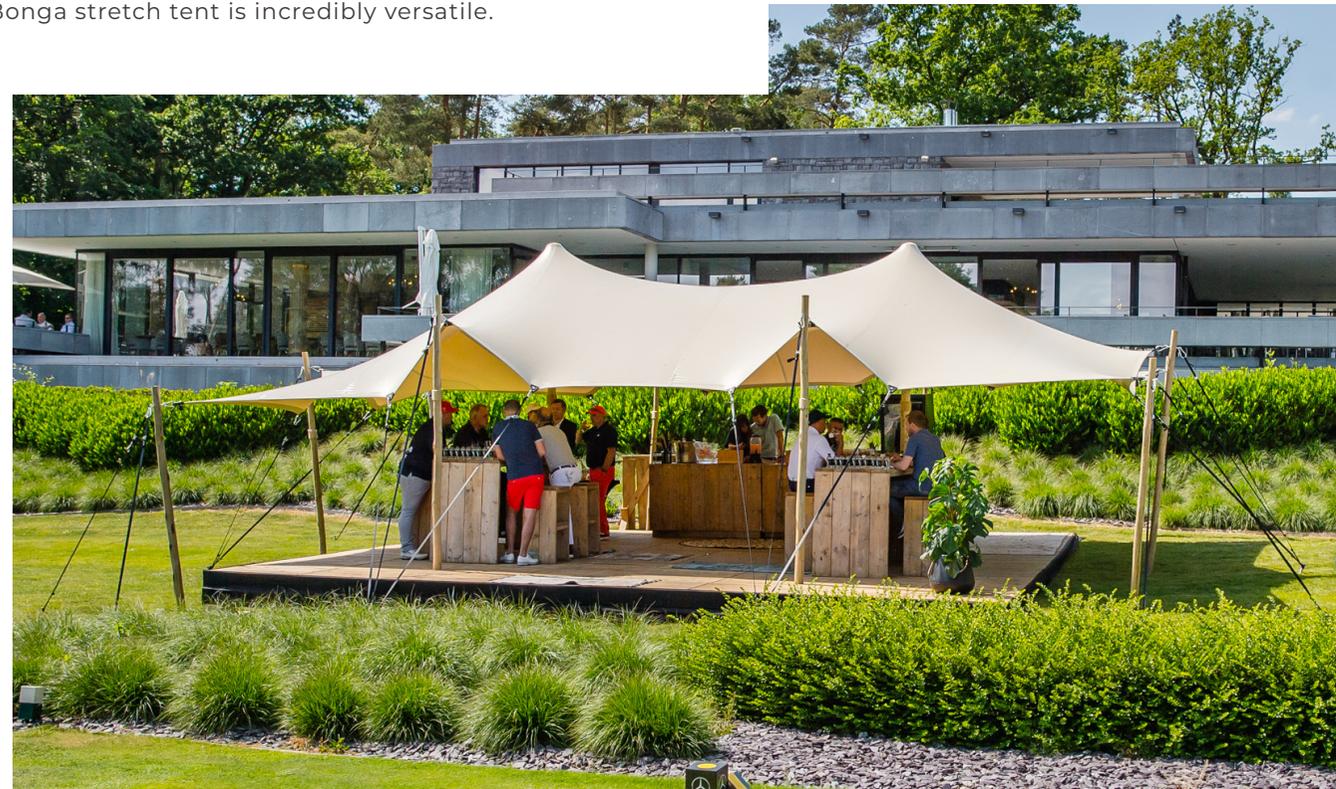

Of course, next to how the tent looks, we also think the quality, the ease of use and the freedom of setup possibilities are very important. Do you want to pitch your stretch tent with aluminium or wooden poles, do you want to join several tents, or even fix it to the wall with a sturdy Keder connection? Or do you want to go the extra mile with a custom made tent in irregular shape(s), we can handle it all! Also, you can pitch the same tent in different ways, for example pulling one or more sides down.

Moreover, we always keep the correct price-quality-ratio in mind because of our 100% Belgian production. This way, we avoid high shipping costs, which our clients thus also don't have to pay for.

Thanks to the high quality standards and the fabric's double coating the Bonga stretch tent is incredibly versatile.

Because we are in control of every step in the production process, we can keep an eye on the production and the quality of each individual tent.

Since we are managing everything ourselves, we can offer our clients endless possibilities with standard-sized stretch tents as well as measure-made tents, and all of them for a reasonable price.
